City of Birmingham
A Walkable Community

MEMORANDUM

Finance Department

DATE: July 15, 2015

TO: Joseph A. Valentine, City Manager

FROM: Mark Gerber, Director of Finance/Treasurer

SUBJECT: June 2015 Investment Report

Public Act 213 of 2007 requires investment reporting on the City's general investments to be provided to the City Commission on a quarterly basis. This information is also required to be provided annually, which the City has and will continue to include within the audited financial statements.

General investments of the City are governed by state law and the City's General Investment Policy approved by the City Commission. The services of an outside investment advisor are utilized to assist the treasurer in determining which types of investments are most appropriate and permitted under the investment policy, maximize the return on the City's investments within investment policy constraints and provide for cash flow needs.

The two primary objectives for investment of City funds are the preservation of principal and liquidity to protect against losses and provide sufficient funds to enable the City to meet all operating requirements that might be reasonably anticipated. Investment activities include all City funds except the retirement and retiree health-care funds as follows:

- General Fund
- Special Revenue Funds
- Capital Projects Fund
- Enterprise Funds
- Debt Service Funds
- Component Unit Funds
- Internal Service Funds

The City has two pooled funds (CLASS Pool and J-Fund), which are used to meet payroll, contractor and other accounts payable needs. As indicated on the attached schedule, there is approximately $2.4 million invested in pooled funds at the end of June. A maximum of 50% of the portfolio may be invested in pooled funds that meet state guidelines. The amount currently invested in pooled funds is 4.6%.

Currently there is approximately $1.5 million, or 2.9%, of the City's portfolio invested in commercial paper. A maximum of 20% of the City's investments may be held in commercial paper with the highest rating of A-1/P-1 by at least two standard rating services.

Investments in obligations of the state total $1.5 million, or 3.0%, of the portfolio. A maximum of 20% of the City's investments may be held in these investment instruments.

The City also holds approximately $16.1 million, or 31.3%, of its investments in government securities, which are obligations of the United States. The maximum amount of investments that may be held in government securities is 100%.

Investments in federal agencies total approximately $29.9 million, or 58.2%, of the City's investments. The maximum amount of the portfolio that may be invested in federal agencies is 75%.

The Investment Policy requires that the average maturity of the portfolio may not exceed two and one-half years. The current average maturity of the portfolio is 1.21 years.

CITY OF BIRMINGHAM
