- June- Summer and Pets

TRAPPING DOs & DON'Ts

Hot Asphalt Awareness

7 SECOND RULE

Press the back of your hand firmly against the asphalt for 7 seconds to verify if it will be comfortable for your dog.

When the air temperature is this, asphalt has been measured at:

<u>AIR</u>	<u>ASPHALT</u>
77°	125°
86°	135°
87°	143°

At 125° asphalt (77°/air), skin destruction can occur in 60 seconds.
