

**AGENDA**  
**BIRMINGHAM DESIGN REVIEW BOARD**  
**Wednesday - August 17, 2022**  
**BIRMINGHAM CITY HALL, 151 MARTIN ST, COMMISSION ROOM 205, BIRMINGHAM MI \***  
**\*\*\*\*\* 7:15 PM\*\*\*\*\***

The City continues to recommend the public wear masks while attending City meetings per CDC guidelines. The cases of COVID-19 are increasing in the area. All City employees, commissioners, and board members must wear a mask while indoors when 6-feet of social distancing cannot be maintained. This is to ensure the continuity of government is not affected by an exposure to COVID-19 that can be prevented by wearing a mask. The City continues to provide KN-95 respirators and triple-layered masks for all in-person meeting attendees.

- 1) **Roll Call**
- 2) **Approval of the DRB Minutes of July 20, 2022**
- 3) **Public Hearing**
- 4) **Design Review**
- 5) **Sign Review**
- 6) **Study Session**
  - A. **Projecting Signs (Wall Mounted)**
- 7) **Miscellaneous Business and Communication**

# MEMORANDUM

Planning Division

**DATE:** August 12<sup>th</sup>, 2022

**TO:** Design Review Board

**FROM:** Leah Blizinski, City Planner

**APPROVED:** Nick Dupuis, Planning Director

**SUBJECT:** Projecting Signs – Study Session

## INTRODUCTION:

As commercial signage has evolved and diversified in tandem with the varying needs of business owners, the City of Birmingham has taken special care to define and regulate signage for the purpose of reducing visual clutter that is unsightly, confusing and distracting, preserving architectural character of buildings and streetscapes, promoting the use of creative and appropriate signage which will enhance the economic viability of the City, and ensuring the health, safety and welfare of the residents of the City by prohibiting signage that creates a traffic hazard or otherwise adversely impacts public safety.

As a result, City Staff have fielded numerous requests for information and reviews surrounding Projecting (Wall-mounted) signs and how they are regulated in the Sign Ordinance. Projecting Sign is defined in the Sign Ordinance: "A sign which extends beyond the building wall, where the horizontal sign surface is not parallel to the building wall." Further, Post-mounted Projecting Sign is defined: "A projecting sign affixed to the side of a post or similar upright."

The location of Projecting Signs (Wall-Mounted) and Projecting Signs (Post-Mounted) are regulated through the Sign Ordinance Article 1, Table B: Permanent Business Sign Standards.

TABLE B: PERMANENT BUSINESS SIGN STANDARDS					
Type of Sign	Permit Required	Maximum Area	Maximum Height	Illumination (see also Section 1.03)	Maximum Number
Projecting Signs (Post Mounted)	Yes	15 square feet per side, 30 square feet total.	No more than 8 feet above street level or above the adjoining ground, if such ground level is above the street level.	Permitted.	1 sign.
Projecting Signs (Wall Mounted)	Yes	7.5 square feet per side, 15 square feet total.	At the sign band and no less than 8 feet above grade.	Permitted.	Not within 20 feet of any other projecting sign; this shall not deny any place of business at least one projecting sign.

**ISSUE:**

Planning Staff has received several requests this year to place a Projecting (Wall-Mounted) sign below the sign band, at least 8ft above the public sidewalk. The buildings where these requests were made have first floor windows much greater than 8ft. in height.

Projecting signs are intended to be read from the sidewalk by pedestrians seeking to enter a business. Locating these signs 8ft. above grade and near an entrance, helps the pedestrian find the correct business and entrance. Locating projecting signs much higher than 8ft. above the public sidewalk makes the sign more difficult for the pedestrian to read and defeats the purpose of the Projecting sign.

It appears that there have been different interpretations of the ordinance over the years. As such there are numerous existing Projecting (Wall-Mounted) signs in the city that are located below the sign band, 8ft above the public sidewalk, which is part of the reason for seeking clarification. See examples provided at the end of this report.

**SURROUNDING COMMUNITIES:**

**Berkeley, MI:** A Projecting Sign is defined: *"Any sign affixed to a building or wall in such a manner that its leading edge extends more than 12 inches beyond the surface of such building or wall."*

<b>Districts Permitted</b>	<b>Maximum Sign Area</b>	<b>Vertical Clearance from Ground Level</b>	<b>Maximum Projection into Right-of-Way</b>	<b>Other Regulations</b>
Office, Downtown, Local Business, Gateway, Twelve Mile, Coolidge, Woodward, Industrial, Eleven Mile	10% of adjoining wall; up to 100 square feet	Rigid Construction: 8 feet Soft Canvas: 7 feet	5 feet	For buildings with more than one business in occupancy, the permitted signage for each business shall be less than or equal to 50% of the permitted signage.

**Ferndale, MI:** Projecting wall sign/blade sign is defined: *"a sign which projects perpendicularly or at an angle from a building. A projecting wall sign does not include canopy, awning, roof, or marquee signs."*

Type of Sign	Max. Height	Max. Size (per face)	Max. Number	Permit Required	Additional Requirements
Projecting or Blade	8 ft. 6 in.	3 sq. ft.	1 per business	yes	a. 24 in. max. projection

\*For the purposes of sign area calculation, Ferndale uses only 1 sign face to compute sign area where a double-sided sign has 2 identical faces.

**Rochester Hills, MI:** A projecting sign is defined as a *"sign that is affixed to the face of a building or structure that projects in a perpendicular manner from the wall surface of the building."*

Projecting signs.

1. Projecting signs shall be mounted below the second-floor window sill in multi-story buildings.
2. Projecting signs shall be small in scale and provide a minimum vertical clearance of eight feet between the lowest point of the sign and the sidewalk.
3. The maximum sign area for projecting signs is five square feet.
4. Mounting hardware shall be attractive and an integral part of the sign design.
5. Projecting signs may be mounted on any building façade that has a customer entry.

**Royal Oak, MI:** Defines projecting sign: *"A sign which is supported by a building wall, and which has its copy area oriented perpendicular to the building wall supporting it; or secondly, a sign, any part of which extends more than 12 inches from the building wall."*

Projecting signs, in recognition of the pedestrian-oriented nature of the downtown, provided the following conditions are met:

1. Each projecting sign shall consist of a background area, which shall be affixed to a separate support arm(s), which shall be affixed to a building facade. The background area shall not be directly affixed to the building facade, but shall be affixed only to the support arm(s).
2. The maximum background area of a projecting sign shall be four square feet.
3. A projecting sign may have suspended therefrom a supplemental sign. The supplemental sign shall not exceed 1/2 square foot in area.
4. The bottom of the projecting sign, including any supplemental sign and support arm(s), shall be at least eight feet above the adjacent public right-of-way, and the top of the sign, including support arm, shall not be greater than 12 feet above the adjacent public right-of-way.
5. A projecting sign, including all support arms, may not extend from a building facade more than 30 inches.
6. A projecting sign may not be internally illuminated.
7. A projecting sign and a sidewalk sign may not be displayed at the same location.

**SUGGESTED ACTION:**

To set a public hearing for September 21<sup>st</sup>, 2022 to consider amendments to Article 1, Table B: Permanent Business Sign Standards, of the Birmingham Sign Ordinance to change the maximum height for Projecting Signs (Wall-Mounted).

CITY OF BIRMINGHAM

ORDINANCE NO. \_\_\_\_\_

THE CITY OF BIRMINGHAM ORDAINS:

AN ORDINANCE TO AMEND THE SIGN ORDINANCE OF THE CITY OF BIRMINGHAM:

TO AMEND ARTICLE 1, TABLE B: PERMANENT BUSINESS SIGN STANDARDS TO AMEND THE PROJECTING SIGNS (WALL MOUNTED) MAXIMUM HEIGHT TO READ:

---

<b>TABLE B: PERMANENT BUSINESS SIGN STANDARDS</b>					
<b>Type of Sign</b>	<b>Permit Required</b>	<b>Maximum Area</b>	<b>Maximum Height</b>	<b>Illumination (see also Section 1.03)</b>	<b>Maximum Number</b>
Projecting Signs (Wall Mounted)	Yes	7.5 square feet per side. 15 square feet total.	<del>At the sign band and no less than 8 feet above grade.</del> <b>No higher than the sign band and no less than 8 feet above grade.</b>	Permitted.	1 sign.
