

Parks and Recreation Board Agenda Department of Public Services 851 South Eton-Conference Room Tuesday, November 9, 2021 6:30 PM

- I. Call to order
- II. Roll Call
- **III.** Approval of the minutes of: Tuesday, October 5, 2021(*regular meeting*)
- **IV.** Agenda Items-Written and submitted by 5pm Monday at the Birmingham Ice Sports Arena, one week prior to the meeting.
  - **1.** Request for Two Art Donation Installations:
    - a. Helen Hierta "Weathered" Art on Loan Application
    - b. Ray Katz "Astral Projection" Art on Loan Application

#### V. Communications/Discussion Items

- 1. Pickleball 2.0
- 2. Memorandum dated November 1, 2021 regarding Conflict of Interest
- 3. Capital Projects Sub-Committee Report-October 13, 2021
- 4. Birmingham Ice Sports Arena- October 2021 Dashboard Report
- 5. Golf Course Updates
  - a. Golf Course Finance Report- September, 2021
  - **b.** Golf Course Report- November 5, 2021
- **6.** Michigan parks look increasingly likely to get big COVID funding boost, Bridge Michigan Article
- VI. Unfinished Business
- VII. New Business
- VIII. Open To The Public for Items Not On the Agenda

#### IX. Next Regular Meeting – <u>Tuesday, December 7, 2021</u>

Individuals requiring accommodations, such as interpreter services, for effective participation in this meeting should contact the City Clerk's Office at (248) 530-1880 at least one day in advance of the public meeting. Las personas que requieren alojamiento, tales como servicios de interpretación, la participación efectiva en esta reunión deben ponerse en contacto con la Oficina del Secretario Municipal al (248) 530-1880 por lo menos el día antes de la reunión pública. (Title VI of the Civil Rights Act of 1964).

If you cannot attend the meetings, please contact Connie Folk at the Birmingham Ice Arena (248) 530-1642. Minutes are available for review at the Birmingham Ice Sports Arena, 2300 East Lincoln, Birmingham, MI 48009

#### PARKS & RECREATION BOARD MISSION STATEMENT

The Parks and Recreation Board strives to provide opportunities for the enjoyment, education, and inspiration for present and future generations of residents and visitors through stewardship of natural, cultural and recreational resources. By continuously elevating the beauty and quality of the parks and recreation system of Birmingham, the Parks and Recreation Board will promote health and wellbeing, and strengthen the community.

The highly transmissible COVID-19 Delta variant is spreading throughout the nation at an alarming rate. As a result,

the CDC is recommending that vaccinated and unvaccinated personnel wear a facemask indoors while in public if you live or work in a substantial or high transmission area. Oakland County is currently classified as a substantial transmission area. The City has reinstated mask requirements for all employees while indoors. The mask requirement also applies to all board and commission members as well as the public attending public meetings.

Should you have any statement regarding the above, you are invited to attend the meeting in person or virtually through
 ZOOM: <a href="https://zoom.us/j/98191466679">https://zoom.us/j/98191466679</a> Meeting ID: 981 9146 6679
 You may also present your written statement to: City of Birmingham, Parks and Recreation Board 851 South Eton, Birmingham, Michigan 48009 prior to the meeting.

# PARKS AND RECREATION BOARD MEETING MINUTES October 5, 2021

Heather Carmona, Chairperson, called the meeting to order at 6:31 pm at 851 South Eton

MEMBERS PRESENT:	Heather Carmona Pam Graham Anne Lipp Ellie Noble (location: Birmingham, MI) Dominick Pulis John Rusche
MEMBERS ABSENT:	Susan Collins, Ross Kaplan
STUDENT REPRESENTATIVES PRESENT:	Alison Chapnick Groves High School
STUDENT REPRESENTATIVES ABSENT:	R.J. Carrel, Groves High School Kyle Sayers, Seaholm High School
ADMINISTRATION:	Lauren A. Wood, Director of Public Services Carrie A. Laird, Parks and Recreation Manager Connie J. Folk, Recreation Coordinator
PRESENTERS:	Robert Stempien, Senior Vice President Plante Moran
GUESTS:	Linda Forrester, Arnold Forrester and Cindy Rose
It was moved by Pulis, seconded by Rus September 14, 2021 regular meeting as Ayes,	sche to approve the minutes of the Tuesday, s submitted. Heather Carmona, Pam Graham, Anne Lipp, Ellie Noble, Dominick Pulis and John Rusche
Nays,	None

Susan Collins and Ross Kaplan

Nays, Absent,

# 2

# Agenda item #1: 2022 Parks and Recreation Board Meeting Dates

RC Folk presented to the Parks and Recreation Board the 20221 Parks and Recreation Board meeting dates for review.

It was moved by Pulis, seconded by Lipp to approve the 2022 Parks and Recreation Board meeting dates as submitted.

Ayes,	Heather Carmona, Pam Graham, Anne Lipp, Ellie Noble, Dominick Pulis and John Rusche
Nays,	None
Absent,	Susan Collins and Ross Kaplan

COMMUNICATION/DISCUSSION ITEM #1: Springdale Golf Course: Springdale Golf Course will close on Thursday, October 14, 2021 (verbal) DPS Director Wood stated that Springdale Golf Course will closed on Thursday, October 14, 2021 and Lincoln Hills Golf Course will remain open, weather permitting. No Action was taken by the Parks and Recreation Board

# COMMUNICATION/DISCUSSION ITEM #2: Pickleball Update (verbal)

PM Laird stated the city did receive site evaluations from Forsite Design Inc. which was for the five potential pickleball locations which were previously discussed.

Administration is planning to meet with the Capital Projects Sub-Committee and reviewing the various locations with potential options and working on a more detail survey for Engage Birmingham and then will report back to the Parks and Recreation Board at an upcoming meeting.

# No Action was taken by the Parks and Recreation Board

# COMMUNICATION/DISCUSSION ITEM #3: Adams Park Update (verbal)

DPS Director Wood stated that the Administration is waiting for a final proposal from Michael J. Dul and Associates to finalize the 2021 Adams Park Concept Plan and to give the city a proposal for construction drawings and bid specifications and hoping to have these items in advance of the next City Commission meeting which is October 25, 2021 and administration will prepare a report to go to the City Commission which will be their first formal look at the concept plan.

DPS Director Wood stated there could be other changes made to the concept plan based on additional comments received.

3

Once Michael Dul is hired the Parks and Recreation Board will see additional designs based on costs and other comments received.

# No Action was taken by the Parks and Recreation Board

# COMMUNICATION/DISCUSSION ITEM #4: Fire Station 2 Open Space Update (verbal)

DPS Director Wood reiterated Fire Station 2 open space property is being evaluated by a local architect Chris Longe, Architect and Interiors who is donating his time to prepare a preliminary concept plan. Hopefully the concept plan may be shared with the Parks and Recreation Board in December.

# No Action was taken by the Parks and Recreation Board

# COMMUNICATION/DISCUSSION ITEM #5: Trail-Sub Committee Update (verbal)

DPS Director Wood stated that the Trail-Sub Committee members Ross Kaplan, Pam Graham, Laird and herself took a walk through the trail and park way system.

Graham stated the committee walked the trail and the purpose was to think on how the committee would propose and prioritize to label the trailheads and to make the trail continuous.

Graham stated that the committee has some good ideas and to also consider an extension of the trail from the museum to Linden Park so someone could walk from Booth Park and to get all the way to Fairway from Linden Park. This may be accomplished in different ways and with trail identifiers.

Graham went on to say there are other opportunities to take a different path not by the museum but it is depending on some surveys and architect and legal kind of issues regarding private property.

Pulis asked if there was an idea on connecting the Quarton Lake trails. Graham stated that there was some discussion and the city is exploring with legal.

Pulis asked about expansion and adding trails to the network. Graham stated there was no discussion on new trails. Pulis stated he only asked because of the tunnel that is under Poppleton Park.

Rose stated that the tunnel was closed because of constructional safety concerns.

Noble stated the tunnel was closed due to health and safety concerns. No Action was taken by the Parks and Recreation Board

# COMMUNICATION/DISCUSSION ITEM #6: Birmingham Ice Sports Update (verbal)

Stempien reviewed with the Parks and Recreation Board the progress of the Birmingham Ice Sports Arena project. Stempien shared pictures of the progress of the construction of the Birmingham Ice Sports Arena which includes pictures of the lobby, studio party room, main arena, outside pictures, concession stand area, mechanical room and other areas of the Birmingham Ice Sports Arena.

# UNFINISHED BUSINESS:

No unfinished business No Action was taken by the Parks and Recreation Board

# **NEW BUSINESS:**

A celebration for William Wiebrecht on October 16, 2021 from 11 am – 2pm at Springdale Shelter.

No Action was taken by the Parks and Recreation Board

# OPEN TO THE PUBLIC FOR ITEMS NOT ON THE AGENDA:

No Public Comments

Carmona stated the next regular meeting will be held on Tuesday, November 9, 2021 at 6:30 pm at 851 South Eton.

Meeting was adjourned at 7:26 pm Connie J. Folk, Recreation Coordinator

Parks and Recreation Board Meeting 10/5/2021

# **MEMORANDUM**

**Planning Department** 

DATE:	November 3 <sup>rd</sup> , 2021
то:	Parks and Recreation Board
FROM:	Brooks Cowan, City Planner
APPROVED:	Nick Dupuis, Planning Director
SUBJECT:	Helen Hierta – "Weathered" – Art on Loan Application

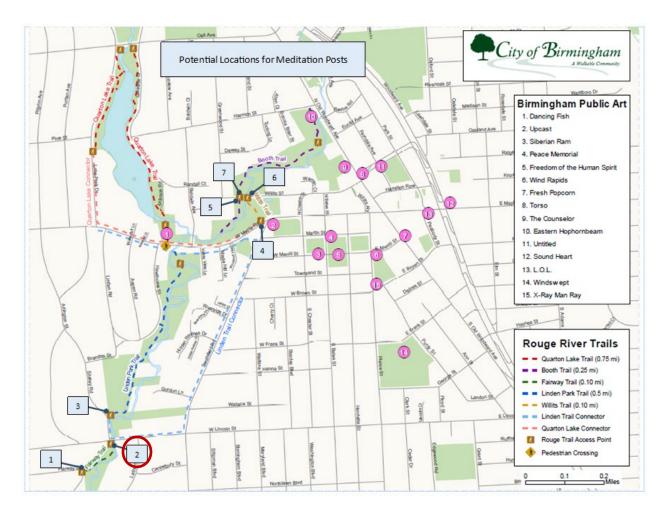

Artist Helen Hierta has applied to loan her sculpture "Weathered" to the City of Birmingham as a part of the Public Arts Board's 2021 Call For Entry. The sculpture is a meditation pole consisting of ceramic material that stands 8' tall, 20" wide, and attaches to the ground with an interior stability pole. According to the artist, "Weathered" is intended to encourage a meditation on the vast unseen human energy fields – a whole network of intelligence glistening under the surface of things – and their complex vibrations that radiate all around us.

"Weathered"

On June 16<sup>th</sup>, 2021, The Public Arts Board (PAB) reviewed the application and felt the best locations for such items would be near the entrance of the City's park trails. The Board felt that the remaining location in the Call-for-Entry were not quite suitable for the subject sculptures given the size and scale.

The Board felt that trail entrances would be better suited for this style of sculpture, and requested suggested locations of trails entrances in the City which are provided below. Staff did not include the entrances off of Maple where the sculptures "Dancing Fish" and "Pyramid Earth" are located. Below are photos and a map of the suggested locations.

On Monday August 2<sup>nd</sup>, 2021, staff toured the proposed locations with the artist. After consideration, the artist indicated they like site #2 at W. Lincoln and Fairway Trail the most, and that the artist felt that "Weathered" would be best suited for this location. The artist also indicated that the three sculptures are separate applications, they are not meant to be considered as one package.

On October 20<sup>th</sup>, 2021, The Public Arts Board considered the artist's preference for Fairway Trail at W. Lincoln and were amenable to the proposed location. The PAB felt that "Weathered" is a tranquil, natural piece of art that also goes well as a marker for an entrance to a nature trail. The PAB moved to recommend approval for the sculpture loan of "Weathered" by Helen Hierta for the proposed location at the intersection of Linden Trail and W. Lincoln.

# Recommended Action:

Move to recommend approval of the application for the sculpture on loan titled "Weathered" by Helen Hierta to be located at the intersection of Fairway Trail and W. Lincoln Street.

Location: W. Lincoln and Fairway Trail (#2)

Sculpture: "Weathered"

Cultural Council of Birmingham Bloomfield P.O. Box 465 Birmingham, MI. 48012

# **MEDITATION ART**

# NARRATIVE

This proposal of sculptural art for Birmingham Public Arts is prompted by a needed evolution of consciousness in our world. To enlighten or raise awareness is opening eyes to a new vision, the wonder of seeing the invisible made visible. My sculptural totems are intended to encourage a meditation on the vast unseen human energy fields — a whole network of intelligence glistening under the surface of things — and their complex vibrations that radiate all around us.

As a septuagenarian with a lifetime study of spirituality, creativity, and the natural world, I work with the repetition of simple geometries to create totemic sculptures that rise from the ground in fluid elegance. They focus on our capacity for an expansive awareness and unity, inspired by the flow of energy — how we connect, how we progress, how we are one with the stars.

Within my practice the recurring geometries are metaphysical exchanges in both the creation and the encounter. Each handmade piece is hallowed, like a bead, then threaded on an iron skeleton. The ceramic shape is its own entity, its own word, yet fitted together completes whole poems. The long verticals relate to the body as well as communicate with the surrounding landscape. They can be found interacting with the trees or standing tall like a beacon of light on a shoreline. There is a universal greensong in nature that twists and folds in and around the works reminding us of the interconnectedness of everything, that all life shares nutrients.

It is my hope that Birmingham Public Arts will consider one of my ceramic art sculptures as an alternative choice to the large installations often seen in public places. There is a unique aesthetic with my sculptures that offers a new experience for the viewer. I think of the work as Meditation Art, where one can aspire to find tonal harmony within self.

# **Sculpture: Testament**

This slab built, hand carved totemic sculpture was vitrified in an electric kiln to +/-2200 degrees with radiant red stains and antique gold glazes. The components stack to a height of 8' on a galvanized pole sunk 3' into the ground. An alternative foundation/base attachment is possible.

'Testament' explores the artist's interpretation of social consciousness during the 2020 world pandemic. As a totem it is meant to suggest the bold affirmation of spiritual individuality vs the demands of unconscious archetypal power. The tall angular brick-like design was inspired by the 'Stoneware Glyph Wall Screen' by David Cressey for Architectural Pottery c. 1965.

# **Sculpture: Incarnate**

The 'Incarnate' series of totemic sculptures are approximately 8.5' tall, made with coiled and hand carved vessels high-fired in Anagama wood burning kilns to +/-2400 degrees. The heat work of wood firing achieves one-of-a-kind dramatic surfaces: the ashes from specific woods

# **MEDITATION ART**

melt and combine with the minerals in the clay during 3-plus days stoking period to create natural ash glazes with an atmospheric effect of pinks and blues and smokey gray/browns, shiny and matte whites.

We live in a time of fear, struggling to overcome all types of lack and limitation. This series references an Old Testament story of a widow who could not pay her debts. She only had a little oil. The prophet Elisha told her to borrow many empty vessels, and then pour her oil into them. She obeyed, and the oil did not stop flowing. The 'Incarnate' sculptures are my metaphors for the potential of making the invisible visible.

# Sculpture: Weathered

The 'Weathered' totems are 7'- 8' tall. 'Weathered II' is installed in the Art Rapids Sculpture Park, Elk Rapids, MI. Organic, like nature, it communes with its surroundings and the people who visit. The components of these sculptures are made out of hand carved clay slabs and extrusions. The unusual surfaces are achieved from the effects of soda or salt added to a gas or wood kiln, during or at the end of firing, and are then accentuated by variations of stacking to individualize for the landscape. When assembling these sculptures, interaction, creative input, and general assistance is invited. Letting the order of the pieces come together fluidly and in harmony, the end result gives a deep sense of wonder.

'Weathered I' is installed on my beach, and over the years has obtained a crusty surface with moss growing in the crevices along with sand adhering to the salt glazes. For outdoor sculptural art this is a compelling look. The 'Weathered' totems suggest the weathering we all experience, and the observation that we never stand alone. The question is, how can we organically rise up, together in harmony, highlighting contrasts while working toward a whole?

# SUMMARY

My creative making is a meditation that considers how energy is imbued into clay which is then tempered by the forces of heat work, and then again by the effects of wind and rain and sun. The structural integrity of my totemic sculptures has been confirmed, on the Lake Huron shoreline, to withstand year-around weather conditions.

The viewer of these totems is naturally pulled into meditation, a form of communication of the highest vibrations. The unseen internal cellular dynamics during such contemplative moments strengthens the immune system individually and collectively, with the benefit of lifting society's shared consciousness. Meditation Art devolves thinking into an indestructible sense of inner refuge that translates into external harmony.

# Public Meeting on Zoom – June 16<sup>th</sup>, 2021

#### A. Roll Call:

Members Present:	Barbara Heller, Monica Neville, Annie VanGelderen, Anne Ritchie, Marla Kaftan, Peggy Daitch, Jason Eddleston, Nora Sherifaj (Student Rep)
Members Absent:	Natalie Bishae, Hadley Lovell (Student Rep)
Administration:	Brooks Cowan, City Planner

# B. Approval of Minutes – May 19<sup>th</sup>, 2021

Motion to approve minutes made by Annie VanGelderen, seconded by Monica Neville.

#### Yeas: 7 Nays: 0

The motion carried.

#### C. New Business

The Public Arts Board reviewed applications for sculptures on loan. In regards to "Communications Vine" by Eric Troffkin, the Arts Board was concerned about people climbing on the sculpture. There was also discussion related to how the piece would fit into the aesthetics of the area. The Board did not feel it met what they envisioned for the area in front of the 555 building that acts as a gateway to the City. There was general consensus that "Communications Vine" would not be recommended for approval. Staff would notify the artist and thank the artist for applying.

The Board then reviewed artist Helen Hierta's application to loan three of her meditation pole sculptures. The Board liked the look of the sculptures, however there was general consensus that the locations in the Call for Entry were not ideal for these sculptures. The Board believed Hierta's work would be best served near entrances to trails, similar to the examples in the application. Staff noted they would bring back locations and photos near trail entryways at the next meeting.

The next sculpture for review was "Cor-ten" Steel Horse by Barry Harrison. The Board reviewed this sculpture at the last meeting and was considering the location at Poppleton Park. The Board requested more detailed photos and information about how it would fit on the base pad for Poppleton Park before making a final recommendation. Detailed photos of the sculpture were provided as well as an illustration of how the legs of the sculpture would fit the base pad. The Board felt the sculpture would be a great addition to the park and would mesh well with the background when viewed from Woodward.

A motion to recommend "Cor-ten Steel Horse" to be located at Poppleton Park as a part of the art on loan program for the City's Call-for-Entry was made by Peggy Daitch, seconded by Annie VanGelderen.

# Yeas: 7 Nays: 0

The motion carried.

# **D.** Communications

The Public Arts Board requested that the City's Communications Department make a public post advertising Cultural Arts Awards nominations. Staff notified the Board that sculpture location near S. Old Woodward and Woodward would be mentioned in discussions for Phase 4 repaying. Pyramid Earth installation was approved and would move forward in July, 2021.

The meeting concluded at 7:45pm.

City of T	Birmingham	MEMORANDUM
		Planning Department
DATE:	November 3 <sup>rd</sup> , 2021	
то:	Parks and Recreation Board	
FROM:	Brooks Cowan, City Planner	
APPROVED:	Nick Dupuis, Planning Director	
SUBJECT:	Ray Katz "Astral Projection" – A	rt on Loan Application

Artist Ray Katz submitted seven sculptures for the Public Arts Board to consider as a part of their 2021 Call For Entry. All sculptures were proposed as loans to the City.

On July 21<sup>st</sup>, the Public Arts Board reviewed the various sculptures and narrowed down their preferences to "Astral Projection" and "Burst". In regards to preferred location, the greenspace at S. Old Woodward and Woodard, south of the 555 building included in the Call-For-Entry could potentially work, however the Board felt that another location could be considered. The PAB felt that a larger, more prominent sculpture should be pursued at the S. Old Woodward & Woodward gateway.

The corner of Southlawn and Southfield Road at Crestview Park was proposed as another possible location. This area does not have a sculpture and could be a good location where Southfield Road acts as a type of entryway to Birmingham. Rendering at this location were requested for the next meeting.

On October 20<sup>th</sup>, 2021, The Public Arts Board reviewed renderings of "Astral Projection" and "Burst" at the proposed location of Crestview Park near the corner of Southlawn and Southfield. The PAB liked the variety of colors, shapes, and height that "Astral Projection" would bring to the area. The PAB also preferred the one base pad that would be required for installation and would be more ideal for a sculpture on loan. The PAB moved to recommend approval of the sculpture on loan titled "Astral Projection" by Ray Katz to be located at Crestview Park near the corner of Southfield and Southlawn.

# Recommended Action:

Move to recommend approval of the application for the sculpture on loan titled titled "Astral Projection" by Ray Katz to be located at Crestview Park near the corner of Southfield and Southlawn.

# Astral Projection 14' height – 12' width – 11' length

# **Biographical Information and Contact information**

# Ray Katz, 144 Cesar E. Chavez, Pontiac, MI 48342 >sculptors @comcast.net< ph#248-229-5617

Ray Katz was born and raised in Detroit Michigan. He has a B.S. from Eastern Michigan University an M.F.A. from Wayne State University in Detroit, Michigan. Ray's passion for sculpture started during his seminal development as an artist. Ray is best known for his large scale metal sculpture but works successfully in a wide range of media and scale. Ray's sculpture is abstract. The manipulation of form in space to create visual balance, using rhythm, action and movement, combine to create compositions that convey the implied energy found in his work. Ray's sculptures allude to an evolutionary process that we all commonly share in the human experience. The active forms that are brought together represent the flux of life, and embrace transformative concepts such as evolution, metamorphosis and transcendence. These ideas and concepts are what separate his work from the historical and industrial influences from which he draws his connections. Ray has exhibited sculpture publicly and privately throughout the Mid-West, Mid-South, West, and overseas in Paris, France and Tokyo, Japan.

# Public Arts Board Minutes

#### Public Meeting on Zoom – Jul 21<sup>st</sup>, 2021

#### A. Roll Call:

Members Present:	Barbara Heller, Monica Neville, Annie VanGelderen, Peggy Daitch, Jason Eddleston, Natalie Bishae
Members Absent:	Anne Ritchie, Marla Kaftan, Nora Sherifaj (Student Rep) Hadley Lovell (Student Rep)
Administration:	Brooks Cowan, City Planner

# B. Approval of Minutes – June 16<sup>th</sup>, 2021

Motion to approve minutes made by Annie VanGelderen, seconded by Monica Neville.

#### Yeas: 6 Nays: 0

The motion carried.

#### C. New Business

The Public Arts Board reviewed applications for sculptures on loan. The artist Helen Hierta submitted three meditation pole sculptures for art-on-loan. The Board liked the look of the sculptures, however there was general consensus at the previous meeting that the locations in the Call for Entry were not ideal for these sculptures. The Board believed Hierta's work would be best served near entrances to trails. Staff presented a trail map of Birmingham with 8 possible trail entrance locations for consideration. The Board prioritized Lincoln & Fairway Trail, the History Museum, and the intersection of Eton and Maple as their top 3. The Board also indicated which sculpture they would like to see at each site. Staff indicated they would coordinate these priorities with the artist and obtain feedback. Staff also indicated they would clarify with the artist if the 3 sculptures were a package or if the artist wanted the Board to select one.

The Board then reviewed Laurie Tennent's application for flower prints to be placed on the electrical box at N. Old Woodward and Hamilton Row. The Board liked the application, however they felt that it should be postponed given that the artist currently has an exhibit on display along the Rouge Trial. The Board felt that other artists should be given an opportunity and that the Tennent should apply again in 2022.

Mig Wire sculptures by Michael O'Reilly were also reviewed, however the Board did not feel they were a great fit for proposed locations in Birmingham, and the Board wished to prioritize other sculpture applications.

The artist Ray Katz submitted 7 possible art-on-loan sculptures for the City to select. The Board felt that the area south of the 555 building in the Call For Entry could work, however the Arts Board wanted to prioritize that space for something larger in years to come. The

intersection of Southfield Road and Southlawn Blvd at Crestview Park was also proposed, given that Southfield is one of the main entryways to the City and the southwest side of town does not have as many sculptures. The Board requested that staff bring photos of Crestview Park and renderings of what some of the sculptures may look like there. Staff indicated that a few examples could be brought to the next meeting.

# **D.** Communications

The Public Arts Board discussed farmers market activities and how it would be a good idea to hand out dog treats to attract people. The Board also concurred on Pinwheels and a fall theme for the next two craft projects.

The meeting concluded at 7:45pm.

City of I	Birmingham	MEMORANDUM
		Department of Public Services
DATE:	November 4, 2021	
TO:	Parks and Recreation Boa	ard Members
FROM:	Carrie Laird, Parks and Recreation Manager	
SUBJECT:	Pickleball 2.0	

#### INTRODUCTION:

New Pickleball Courts is a priority project as part of the approved Parks and Recreation Bond and incorporated in the first bond issue. The first step in the construction of new Pickleball courts is to determine the location.

#### BACKGROUND:

Staff began exploring various options for pickleball locations and presented 5 potential locations at the May 11, 2021 Parks and Recreation Board Meeting. Additionally, the locations were posted to Engage Birmingham as a survey, asking residents to rank the locations, with 1 being their favorite and also to let us know the reason for their #1 choice.

The five locations, and results of this first survey respectively are listed below. Kenning Park (NE Corner of Lincoln and Eton):#1 St. James Park: #2 Poppleton Park: #3 W. Lincoln Well Park: #4 Crestview Park: #5

Staff, working through the Capital Projects Sub-Committee, reviewed all feedback and further evaluated site locations. We engaged the services of Foresite Design, a local architect with a unique and primary focus in the design and implementation of athletic and recreational facilities, beginning with site assessments and potential designs for each of the 5 locations.

Considerations throughout this process include, but are not limited to: number of pickleball courts to offer, site amenities, parking, current uses of the park, future planned projects, proximity to nearby residents, and ADA accessibility. Goals were set to provide at least 6-8 pickleball courts at each location, have adequate parking available, and to maintain existing park fields, playground and court areas.

We have narrowed the 5 locations to 3 – Kenning Park, St. James Park, and Crestview Park based upon listed criteria above.

Kenning Park:

- #1 ranking from May 2021 survey
- Enough available park space to accomplish 6-8 pickleball courts
- City Parking available across the street (add crosswalk, signage)
- Room for Site Amenities (seating, shade canopies, gathering area)
- No conflict with existing park fields, playgrounds or court areas- location at the corner of S. Eton and Lincoln noncontiguous with rest of park
- Minimal residential proximity (sound)

St. James Park:

- #2 ranking from May 2021 survey
- Enough available park space to accomplish 6-8 pickleball courts with the elimination of 1 tennis court from inventory
- City Parking lot available
- Room for Site Amenities (seating, shade canopies, gathering area)
- Minimal residential proximity (sound)
- Possible future site of splash pad-intensive programing
- Current Park activity: Baseball, Tennis, Playground, YMCA park permit-day camp

Crestview Park

- #5 ranking from May 2021 survey
- Enough available park space to accomplish 6-8 pickleball courts with the elimination of 1 tennis court from inventory
- On street parking available (may need to add signage)
- Room for Site Amenities (seating, shade canopies, gathering area)
- Minimal residential proximity (sound)
- Current Park activity: Open space available for Soccer, Tennis, Playground

Poppleton Park, although ranked #3 on the survey, was eliminated based on site assessment. The only viable option for pickleball at Poppleton is a conversion of both of the existing tennis courts into 6 picklebal courts. This is due to the intent of the Poppleton Park Concept Master Plan, budget constraints, and proximity to neighboring residents. The Capital Projects Sub-Committee came to the conclusion that the loss of 2 Tennis Courts from the park system inventory is not acceptable in order to accommodate for Pickleball.

West Lincoln Well Park was ranked #4 on the May survey, however site evaluation revealed lack of parking even for a conversion of the tennis courts to pickleball, let alone the addition of new courts. The area available to build new courts is to the east of the existing tennis courts, only 4 courts would fit, and the proximity to the neighboring residents is too close. Therefore this location was eliminated as an option.

# PUBLIC COMMUNICATIONS:

This project has been a reoccurring communication item on the Parks and Recreation Board agenda since May, 2021. This meeting will serve as another opportunity for the Parks and Recreation Board input and public feedback. Pickleball 2.0 Survey will be open on Engage Birmingham through November 30, 2021.

NEXT STEPS: We plan to make a recommendation for Pickleball courts location at the December 7, 2021 Parks and Recreation Board Meeting.

DATE: November 1, 2021

TO: Lauren Wood, Director of Public Services

FROM: Mary M. Kucharek

SUBJECT: Conflict of Interest

#### INTRODUCTION:

 A question was presented to determine if a member of the Parks and Recreation Board has a conflict of interest when there are items to discuss and vote upon involving Adams Park and benefits to Roeper School where the board member's child attends, and also where the board member has a family member, in this case a spouse, employed by Roeper School as an Assistant Athletic Director.

#### BACKGROUND:

- The objectives and duties of the Parks and Recreation Board shall be to "promote a recreation program and park development program for the City." The Parks and Recreation Board serves in an advisory capacity to the City Commission to all matters affecting Parks and Recreation. At times, Parks and Recreation may include park or recreation facilities that may serve and be enjoyed by Birmingham Public Schools.
- The Parks and Recreation Board will be recommending to the City Commission proposed changes to Adams Park using Parks and Recreation bond money, which may benefit Roeper School's Athletic Department.

#### LEGAL REVIEW:

- A conflict of interest occurs pursuant to Birmingham Ethics Ordinance and state law when a situation in which the concerns or aims of two different parties are incompatible or when a person has a vested interest involving personal interests, financial, or social factors.
- We may look to the Revised School Code Act 451 of 1976 at MCL § 380.203, which discusses and defines conflicts of interest for members of the school board. I use this analogy because a school board has a great deal of authority, wherein the Parks and Recreation Board is advisory only. Nonetheless, I find this a persuasive control because of the fact that if a conflict of interest were to occur for a school district board position, one could akin it to other boards. However, specifically at MCL § 380.1203(3), it states that:

"....if a member of the board of a school district or intermediate school district or board of directors of a public school academy, or a person serving as the legal counsel to the board or board of directors, has a child who is a pupil of the school district, intermediate school district, or public school academy, that relationship alone does not constitute a conflict of interest or financial interest in a contract or other financial transaction of the school district, intermediate school district, or public school academy."

Therefore, under normal circumstances, I do not believe that by simply having a child in a school which may receive benefits from a proposal creates a conflict of interest.

• Likewise, we look to the Revised School Code MCL § 380.1203(1) that states:

"(1) ... A member of the board of a school district or intermediate school district or board of directors of a public school academy is presumed to have a conflict of interest if the member or his or her family member has a financial interest, or a competing financial interest, in the contract or other financial transaction or is an employee of the school district, intermediate school district, or public school academy."

While it is recognized that a school board member has more power and authority than the Parks and Recreation Board, the Parks and Recreation Board will nonetheless be deliberating and voting on matters of concepts, designs, and funding to be enjoyed by Adams Park and Roeper School.

• Therefore, there is a conflict of interest, and at a minimum a perceived conflict, as it could certainly be argued that the spouse directly benefits from the decisions made by the Parks and Recreation Board, and its recommendation to the City Commission.

# SUMMARY:

- In conclusion, I do not believe a Parks and Recreation Board member has a conflict of interest when their child attends a school that may receive a benefit from the Parks and Recreation Board. However, I do believe the Parks and Recreation Board member has a conflict of interest when their spouse is an employee of a school, particularly as its Assistant Athletic Director, when funding will be provided to change the athletic facilities.
- Therefore, each time the subject matter of Adams Park and items for consideration and voting are raised, the board member should disclose that she has a conflict and recuse herself from participating in discussion and voting on items involving Adams Park.

#### **Capital Projects Sub-Committee Progress Report**

October 13, 2021

- From: City of Birmingham Parks & Recreation Board Capital Projects Sub-Committee (Heather Carmona, Susan Collins, John Rusche Lauren Wood, Carrie Laird, and Connie Folk)
- To: Parks & Recreation Board

The seventh meeting of the sub-committee was on October 13, 2021.

We recognize that citizen engagement is particularly important as we move forward. We are looking for opportunities to place key decisions on the City Commission agenda, with time for the public to be made aware and participate.

#### Ice Sports Arena Construction

Very significant progress made to date, but delays due to mechanical equipment installations, inspections and testing will delay opening until October 25, probably a bit later.

#### Adams Park

Michael J. Dul & Associates participated in this portion of the meeting. Our goal was to provide input for a presentation of the concept to the Birmingham City Commission on October 25 at 7:30 p.m.

We reviewed the Engage Birmingham participant report. From April 29 through October 4, there were 1,600 total visits to the Adams Park page; 1,308 participants are considered aware because they visited a project or tool page; 418 participants are considered aware because they viewed a photo, downloaded a document, visited the key dates page, visited the FAQ page or visited multiple project pages; 72 participants posted a total of 79 comments.

The comments are very useful and prove the value of the Engage Birmingham tool. We determined that the comments generally fall into five buckets:

**Roeper School/City of Birmingham shared facility**: The legal agreement with Roeper permits them to use the park during the school year for certain activities such as shot put, long jump, discus toss, soccer. The concept places those activities at the north end of the park nearer to the school. Roeper plans to contribute financially toward these items. It would also be a good idea to add some copy to the park sign stating that this park is a shared facility between Roeper School and the City of Birmingham so that walkups feel welcome.

**Design**: This design retains the basic concept of the 2016 design but is an improvement in terms of isolating Roeper activities and adding a rain garden and improved play/seating area. A few comments suggested a splash pad. That will not be part of this park. It is slated for second bond series in 2024. Maybe we can look at a combination splash pad and outdoor ice rink.

Equipment: Ninjas or more traditional equipment. That will take more research.

**Amenities**: The original budget was \$700,000. Currently the estimate is \$1 million. We will have to adjust the items and timing to accommodate the budget. We will also look for donations.

**Safety**: This has been a shared facility for several years. Roeper coaches will monitor activities for safety.

**Schedule**: City Commission acceptance October. Then bidding and contractor selection with construction beginning in May or June 2022 in coordination with Roeper.

#### Pickleball

We reviewed 10 pickleball court variations for the five possible locations.

We narrowed the choices to: Kenning near Eaton and Lincoln. Eight new pickleball courts. St. James. Six new pickleball courts, existing two tennis courts remain. St. James. Convert tennis courts to pickleball courts. Poppleton. Convert tennis courts to pickleball courts.

Drop West Lincoln Well Park (lack of parking) and Crestview.

Signs will be posted "this site is being considered ... log onto Engage to comment."

We need to ensure that there is sun shelter and picnic tables and benches to facilitate the social aspect of pickleball. Royal Oak converted two tennis courts into eight pickleball courts at Whittier and two tennis courts into seven pickleball at Upton with room for an awning-type shelter.

# City of Birmingham – Ice Sports Arena Project | October 2021 Dashboard Report

#### **Project Highlights & Value Add Items:**

- 70% City of Birmingham voter approval of Updated entry ticket booth counter Parks and Recreation Bond
- Commissioner approval of \$5,797,606 Project Budget
- Managed budget items/savings to-date:
  - Rubber flooring discount
  - $\circ$  Ice plant mech. system value engineering savings
  - BU Booster contributions
  - BHA trophy case lighting donation
- Negotiated new ADA compliant bleacher installation vs. retrofit existing
- Electrical primary replacement
- Added exterior metal siding and soffit painting
- Added energy efficient LED light fixtures to lobby restrooms and conference room

- - Added new lobby toilets and new toilet partitions
  - Add additional painted rooms/areas to work scope
  - Added LiveBarn (Nov/Dec installation)
  - Project is under Commissioner approved budget

#### **Project Schedule:**

- November Parks & Recreation Board Meeting update
- Final Clean
- Ice installation Main and Studio Rinks
- Project punch list
- Commissioning
- Final inspections

#### Golf Report – Nov 5, 2021

It has been a remarkable season for rain and it has hindered play and cart usage quite a bit this season. However, rounds remained high and we are very close to last year's total rounds. Springdale closed on October 15<sup>th</sup> this year and Lincoln Hills will remain open dependent on inclement weather and course usage. There was a noticeable decline in play starting in June compared to the Covid surge of 2020 as people were getting vaccinated and venturing out of their homes to do other activities. Springdale had one of the highest years in rounds with an additional 1,634 over 2020, or 6% increase, and it surpassed Lincoln Hills in August and September.

### Michigan parks look increasingly likely to get big COVID funding boost

Communication/Discussion Item #6

The Little Traverse Wheelway in Petoskey still hasn't been fixed after part of it was destroyed by Lake Michigan erosion last year. City Parks Director Kendall Klingelsmith said he hopes federal stimulus money directed toward parks will help pay to fix it. (Photo courtesy of Kendall Klingelsmith)

October 28, 2021

Michigan Environment Watch

Coronavirus Michigan, Gov. Gretchen Whitmer, Rural Michigan

Michigan's long-suffering parks look increasingly likely to get a big funding boost to help fill pothole-laden roads, update ancient bathrooms and revamp outdated campsites.

Republican lawmakers this week introduced three bills that, taken together, would direct \$968 million of Michigan's \$5.8 billion in unspent COVID-19 stimulus dollars to

state and local parks.

#### ADVERTISEMENT

Two of the bills closely align with a parks funding plan Gov. Gretchen Whitmer announced earlier this year, a signal that the Democratic governor and Republicanled legislature are in general agreement about using some of Michigan's stimulus windfall to spiff up Michigan's popular but poorly maintained parks.

- New push to make Michigan's outdoors more inviting to people of color

Senate Bill 703, sponsored by Ed McBroom, R-Vulcan, would <u>allocate \$250 million</u> to drive down a \$264 million maintenance backlog in Michigan's state parks, and would devote \$30 million apiece to the Mackinac State Historic Parks and a new "Northern Michigan tourism and sports fund."

Senate Bill 704, sponsored by Michael MacDonald, R-Macomb, would devote \$150 million for grants to help local parks systems make their own facilities upgrades.

A third bill, sponsored by Sen. John Bumstead, R-Newaygo, would <u>use \$508 million</u> to fill the State Park Endowment Fund up to its \$800 million cap. That would create new long-term funding for the parks system, which relies upon disbursements from the endowment to buy new land and cover expenses at the land it already owns.

But it's unclear whether padding a trust fund is an allowable use of federal COVID stimulus dollars, which states are required to spend by the end of 2026.

Clay Summers, executive director of the Michigan Recreation and Park Association, which represents public parks systems throughout the state, said his organization is seeking more clarity before deciding whether to support the third bill.

Using COVID dollars to create permanent parks funding "certainly makes all the sense in the world from a practical standpoint," Summers said, "... but we're not sure of the legality at this point."

If the endowment fund proposal passes legal muster, McBroom estimated that it could boost the parks system's annual funding by tens of million dollars.

"It's going to allow us to not suffer this backlog on infrastructure in the future," he said.

Spokespeople with Whitmer's office said they "look forward" to working with the legislature to get money out the door.

"One of our state's greatest strengths is our pristine natural resources," Whitmer spokesperson Bobby Leddy said in an email to Bridge Michigan. "That's why Governor Whitmer and the legislature have put forward very similar proposals to make historic investments in our state and local parks."

The spending proposals build upon recommendations from a 2012 <u>Michigan State</u> <u>Parks and Outdoor Recreation Blue Ribbon Panel</u> convened under Republican Gov. Rick Snyder.

The proposed funding would represent a major windfall for the state parks system, whose annual operating budget this year is just \$80 million, along with \$20 million for capital improvement projects.

Taken together, state parks chief Ron Olson said, the funding boosts would be "tremendous" for a system that, while beloved, has long struggled to maintain its assets.

Following decades of worsening conditions at Michigan's 103 state parks, the state in 2010 created an \$11 annual recreation passport visitors can buy to gain year-round access to state parks. That infused the system with new operating cash, helping the system's budget to grow from about \$48 million in fiscal year 2011 to \$80 million this year.

But the added passport revenue has not been enough to make a dent in the maintenance backlog that had ballooned over decades, leaving crumbling roads, outdated facilities and unmaintained trails.

Money to address those issues would come at a crucial moment: Michigan's parks have never been more popular. At state parks alone, <u>visitation is up</u> 30 percent since the pandemic began.

"It's a legacy-builder," Olson said of the possible funding boost. "This is a way to create that up-to-date atmosphere so people can enjoy themselves in a clean, safe park."

The bills have been referred to the Senate Appropriations Committee, where they await a hearing.
