Baldwin Public Library Logo

J. Miller presented the requested logo version and advised that the Library Board unanimously preferred the original version, citing that it better integrated with existing fixtures and materials. D. Fehan thanked J. Miller and the Library Board for including the City's color palette and creating an open dialogue in the development of their new logo. Several committee members advised that they prefer the updated logo version (utilizing the City's new fonts) as they felt that it provides a more cohesive city brand, and requested that J. Miller provide that feedback to the Library Board for further consideration.

Wayfinding/Signage Program Interviews

Corbin Design and KMA Design each conducted presentations to the committee via Zoom. Each company's team of representatives presented capabilities, design and implementation process and timelines, examples and more. The committee had an opportunity to ask questions regarding:

- How the process would work specifically in Birmingham including how to handle a major roadway such as Woodward Avenue and collaborate with MDOT
- Sustainable and flexible design options
- Length and process for the initial visit and how the team becomes familiar with Birmingham and its unique characteristics
- Methods used to assess traffic flow, identify trouble spots, etc.
