Fire Safety Tips

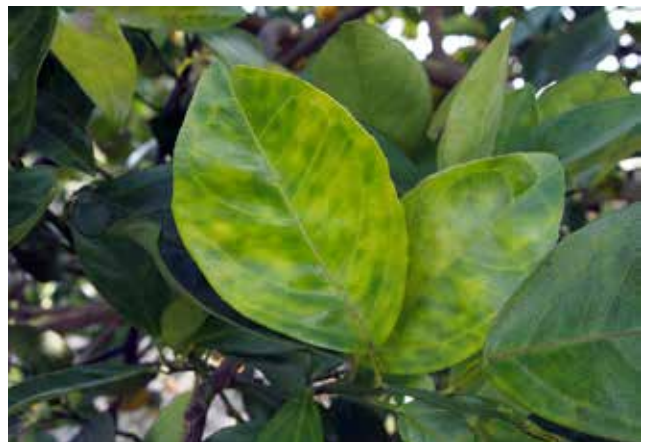

Protect your home and family by installing working smoke alarms on every level of the home, in the hallway outside the sleeping areas, and in each bedroom. Test your smoke alarms once a month and replace the batteries every year.

Monitor Your Citrus Trees for Signs of Disease

Cases of Huanglongbing, also known as HLB or citrus greening disease, have been found in Buena Park and throughout Orange County. The disease is spread by the Asian citrus psyllid (ACP), a pest that feeds on citrus leaves. The disease is not harmful to humans but is fatal for citrus trees.

Residents are asked to monitor their citrus trees monthly for any signs of the pest or disease and report any issues to the California Department of Food and Agriculture (CFDA).

For any questions related to this program, please contact the CDFA toll-free number at **(800) 491-1899** for assistance.
