IF GRANTED, THIS PERMIT IS SUBJECT TO THE FOLLOWING CONDITIONS, REQUIREMENTS, AND COVENANTS,
TO WIT:

- 1: Application for road crossings must be submitted to the COUNTY CLERK for approval by the Board of County Commissioners (BOCC) with a payment of \$_____ per crossing for an inspection fee made payable to the COUNTY TREASURER'S OFFICE. All telephone companies and public utility companies shall be exempt from the inspection fee. **Applicant/Contractor shall telephone County Highway or County Commissioners office twenty-four (24) hours prior to actual construction if required by BOCC, so an inspector can be at the site during construction.** Applicant/Contractor shall have the right to maintain its facilities upon reasonable notice to the BOCC or a designee.
- 2: Blasting is not permitted with the highway right-of-way, except in unusual circumstances, and only with special, prior approval from the County Engineer and/or Board of County Commissioners.
- 3: Underground construction of pipelines, telephone company facilities, or utility lines (hereinafter collectively referred to as utility lines) that cross county highways shall be bored, and NO DITCH OR TRENCH in the road shall be opened by the Applicant/Contractor, unless otherwise agreed to, in writing, by BOCC.
- 4: When paralleling the roadway, utility lines shall be located within five (5) feet of the right-of-way line of the fence line, unless otherwise agreed to by BOCC. If no fence exists, the location of the right-of-way line shall be determined by this Applicant. In no instance shall a utility line be placed within the roadbed, unless agreed to by BOCC.
- 5: All underground paralleling facilities shall be installed at a minimum of thirty (30) inches below the surface, except buried power lines which should be placed at a minimum depth of forty-eight (48) inches below the surface, and except telephone company facilities, which shall be installed at a minimum of twenty-four (24) inches below the surface. All overhead and parallel installations shall not cross any county road nor any point of access to the county road at a height of less than required by the Corporation Commission of the State of Oklahoma.
- 6: All underground crossings shall be installed at a minimum of three (3) feet below the lowest point of elevation of the centerline of the road or two (2) feet below the point of elevation of the ditch, whichever is greater. High pressure pipeline crossings shall be installed at a minimum of four (4) feet below the lowest point of elevation of the ditch. High pressure pipelines are defined as pipelines designed to operate at pressures in excess of one hundred twenty-five (125) PSIG.
- 7: All Section and Quarter Section Corners markers shall be protected. No pipeline shall cross an intersection diagonally.
- 8: The applicant agrees to keep the road open to traffic unless otherwise agreed to or approved by the BOCC. The Applicant or Contractor shall meet all applicable laws and regulations, including those in the "Manual on Uniform Traffic Control Devices" appropriate for the construction project covered by the Application.
- 9: The Applicant will relocate said utility or pipeline, if and when it interferes with highway construction or maintenance, upon notice from the BOCC and/or Engineer at NO COST TO THE COUNTY.
- 10: Applicant agrees to design pipeline road crossings using one of the following methods:
 - A: In encased, casing shall extend from right-of-way.

- B: If non-encased, and steel, pipe within the right-of-way shall be superior to the pipe outside the right-of-way.
1. By being at least one grade better and of the same thickness, or;
 2. Being a minimum or wall thickness greater and of the same alloy, or;
 3. In the case of unequal diameters, being proven superior by use of the pipe design formula as per 49 CFR Part 192.105.

- C: If non-cased, and of plastic, pipe within the right-of-way shall be installed:
1. At a minimum depth of four (4) feet below the elevation of the ditch; or
 2. If buried with less than four (4) feet of cover, approval prior to construction must be obtained from the BOCC.
 3. When crossing a road, high pressure pipelines will be covered by a concrete slab.

11. Applicant agrees to hold free and blameless this County for any damage to person or property caused by its construction or maintenance of any poles, posts, stubs, pipes, valves, wires and other property placed on or under said highway, pursuant to this application. Applicant further agrees to be responsible of repairing all damages to the roadway caused by the application's construction. This responsibility includes, when and where appropriate, Applicant causing to be placed on the roadway sufficient gravel, chat, and/or asphalt when hard surface road which will return the roadway where the cut or installation of facilities occurred to ta level surface, designed such that, after compaction, no depressions in the roadway will result from Applicant's installation.
12. Applicant assures that all necessary permits have been received from those governmental agencies from which approval is required by Federal and State law, including Section 404 of the Federal Water Pollution Control Amendments of 1972.33 U.S.C S1251, et.seq.
13. Special Requests:

Permit is valid for 30 (thirty) days, unless otherwise agreed upon at the time the permit is approved by the Board of Carter County Commissioners. A detailed map must accompany all permits
