**E. Public Comments**

There were no public comments.

**F. Action Items**

**1. Resolution 21-22 Establishing a Red Curb Marking Policy**

City Manager Matt Andrews proposed this Resolution to the Council. There had been requests for red curb

parking throughout the city, particularly around parks. This resolution would allow for residents to file applications for red curbs that would be evaluated and if it was determined there was a safety concern, the curb would be red marked by public safety. There were two places in the city where the curbs were red that had parking permits for residents and so if the curbs were being marked red for safety, then they should not allow permitted parking because it would go against the safety guideline. The current policy did not account for this, and his recommendation was to leave the policy as was until applications started coming in. These areas would have to be grandfathered in once and if the issue arose. Removing red paint was not easy and would ruin the concrete.

City Attorney Andy Blackburn said that people didn't like it when other people parked in front of their house, but it was public property. If the curbs were painted red, it needed to be for a safety issue. As far as permits they needed a really good reason to say that the public property was banned for everyone but a permit-holder.

**Councilmember Wilson motioned to approve Resolution 21-23. Councilmember Jackson seconded the motion. A roll call vote was taken. All Councilmembers voted "aye." The motion carried.**

## **G. Discussion Items**

### **1. Camping in Roy City**

Mayor Pro-tem Burrell said that she would like further investigation into the issue as a councilmember before she discussed this. City Manager Matt Andrews said that this would be a Planning Commission issue where zoning would need to be adjusted, council would just need to tell the Planning Commission to look into the issue. The only ordinances in the books about this was that people couldn't camp in the parks after 11 o'clock or on the city streets longer than 48 hours. The larger cities were having an issue with this even though Roy didn't have that big of a problem with it, but they wanted to be prepared in case it trickled down to them. It was agreed that this needed to be looked into more before a decision was made.

## **I. Reports**

City Manager Matt Andrews:
