

ROY CITY
Roy City Council Meeting Minutes
September 5, 2023– 5:30 p.m.
Roy City Council
5051 S 1900 W Roy, UT 84067

Minutes of the Roy City Council Meeting held in person in the Roy City Council Chambers and streamed on YouTube on September 5, 2023, at 5:30 p.m.

Notice of the meeting was provided to the Utah Public Notice Website at least 24 hours in advance. A copy of the agenda was also posted on the Roy City website.

The following members were in attendance:

Mayor Dandoy
Councilmember Joe Paul
Councilmember Scadden
Councilmember Wilson
Councilmember Sophie Paul

City Manager, Matt Andrews
City Attorney, Matt Wilson
City Recorder, Brittany Fowers

Excused: Councilmember Jackson

Also present were: Assistant City Manager, Brody Flint; Police Chief, Matthew Gwynn; Deputy Fire Chief, Mike King; Public Works Director, Ross Oliver; Management Services Director, Amber Kelley; Parks and Recreation Director, Michelle Howard; Glenda Moore, Kevin Homer, Tim Higgs, Micheal Ghan, John Ritchie, Talya Best, LuAnn Cooper, Claude Payne, Randy Staley, Jeremy Thompson, Leon Wilson, Dennis Brown, Glen Jacobson, Natalie Pierce, Lynn Hull, Shelby Willis, Jared Roper, Cha Christensen, Andie Juag, Natalie Roper, Susan Cady, Jennifer Vanbree, Kayla Webster, Mike and Molly Blackburn, Melanie Williams, Mary Lyne and Ernie Jones, and Linda Williams.

A. Welcome & Roll Call

Mayor Dandoy welcomed those in attendance and noted Councilmembers Wilson, Sophie Paul, Scadden, and Joe Paul were present. Councilmember Jackson was recused.

B. Moment of Silence

Councilmember Scadden invited the audience to observe a moment of silence.

C. Pledge of Allegiance

Councilmember Scadden led the audience in reciting the Pledge of Allegiance.

D. Consent Items

(These items are considered by the City Council to be routine and will be enacted by a single motion. If discussion is desired on any particular consent item, that item may be removed from the consent agenda and considered separately.)

1. Approval of the August 15, 2023 Roy City Council Meeting Minutes, August 15, 2023 Roy City Special Work Session Minutes; and Surplus Vehicles.

Councilmember Joe Paul motioned to approve the Consent Items as the August 15, 2023 Roy City Council Meeting Minutes and August 15, 2023 Roy City Special Work Session Minutes with changes to minutes as noted, as well as the surplus vehicles as listed in the packet. Councilmember Scadden seconded the motion. All Councilmembers voted “aye”. The motion carried.

E. Public Comments

Mayor Dandoy opened the floor for public comments.

LuAnn Cooper, 6076 S 4100 W, Roy, stated she was there that evening to advocate for a crosswalk light to be placed at 4300 West 5757 South in front of Emma Russell Park. She spoke about the increased traffic on that street, and said although there was a designated school crosswalk already, many students crossed the street at the intersection she had indicated as well and she thought there should be a crosswalk light placed there. She noted she had posted her idea for a light on Facebook, and reported many people had responded to her post agreeing that a light was necessary. Ms. Cooper discussed she had seen many near accidents there and thought these incidents could be mitigated with the installation of a light. She clarified she did not think a stoplight was necessary; just a flashing light to indicate there was a crosswalk would be sufficient.

The Councilmembers discussed this safety concern. Ms. Cooper clarified her concerns were about the crossing rather than speeding, although the Councilmembers noted many people sped on that road as well. Mayor Dandoy explained they would work with the Police Chief to assess the issue and conduct some kind of study, and said they would go through the study process before the Council made a decision about what to do in response. Mayor Dandoy acknowledged it was a real issue, although said they would need to have documentation to validate those concerns before they moved forward with the installation of a light. Ms. Cooper asked who she should follow up with to keep track of the progress of this, and Mayor Dandoy suggested she reach out to the City Manager.

Jennifer VanBree, 4998 S 2575 W, Roy, said she was here on behalf of her small business, a small gymnastics studio for children. She reported she had found out about a new business, a coffee shop, going in right in front of her building which she felt impacted the safety of her clients. She stated she had not been notified of the new business going in, and she expressed concern that having a drive through right in front of her business was a safety issue since she had young children going in and out of her business all day. Ms. VanBree emphasized the new coffee shop had not reached out to her in regards to creating a safety plan, and asked if the City had done anything to ensure safe parking and access to her building. She thought she should have been contacted before the plans for the new coffee shop had been approved, and expressed she took the safety of her clients very seriously. She also discussed she had been told she could have a promotional flag to advertise, although it could only be placed directly in front of her building. She thought this was unfair.

Mayor Dandoy replied he did not know of any laws which indicated a new business was required to notify existing businesses when they moved to an area. He suggested Ms. VanBree follow up with the Economic Development Director.

Kevin Homer, 5398 S 4000 W, Roy, discussed item F-4, which was about the implementation of a new transient room tax in Roy City. He thought this was unfair since people did not receive any benefit from paying this tax; it was only a cost to them. Mr. Homer opined just because Roy City could add a new tax, it did not mean they should, and he implored the City to not implement another tax and further burden residents. He added if they did feel it necessary to add this tax, they should then review their other taxes and evaluate if they were all still needed. He urged the Council to limit the burden of taxation on residents and to curb their spending.

Glen Jacobson, 4170 S 2400 W, Roy, indicated section G, item 6, about the four-way stop sign at 5175 South 2500 West. He thought the location was wrong, and it actually meant to refer to 2175 West, where there was a three-way stop. Mayor Dandoy thought that was different from what was being discussed. Councilmember Wilson clarified the intersection was past the one Mr. Jacobson referred to, and she explained where the intersection was located and stated the written location was correct. Mr. Jacobson then

discussed the new pickleball courts which were being built by the park, and said the intersection by the park at 2175 West had a crosswalk which he felt got congested in the morning as many students utilized it to get to school. Mr. Jacobson reported he had seen many people speeding on the street, and many drivers went through the crosswalk without stopping. He opined the crosswalk needed better enforcement, and he commented he had never seen a police officer in the area. He thought enforcement would help with safety in the area, and pointed out traffic would increase once the pickleball court construction was completed.

Jeremy Thompson, 5879 S 3850 W, Roy, pointed out many roundabouts in the City were now water-conserving, which was good although they now were visually boring. He proposed high schoolers in the City paint rocks to be used for decoration in the roundabouts. He thought it could be an imaginative senior project for the high schoolers to do.

Natalie Roper, 4171 S 2175 W, Roy, referenced she had spoken with Councilmember Wilson in regards to the stop sign Mr. Jacobson had previously discussed. She thought the only people who should have an opinion on the stop sign were those who lived on her street, since they were the ones who had to deal with the traffic. She reported she had reached out to her neighbors to get their input, and the majority of them were in favor of keeping the stop sign, although they knew it was not enough to fix all of the problems on their street. She said luckily, they had not had any accidents there, although the stop sign had been successful in slowing traffic. Ms. Roper expressed it was frustrating the City was focused on the stop sign since it had not caused any issues, although there were many things in Roy which did require attention, such as the bathrooms in the park still being locked. Mayor Dandoy clarified the stop sign Ms. Roper was talking about was not the one up for discussion that evening. Mayor Dandoy explained although Councilmember Wilson had investigated the stop sign, it had not been placed on this evening's agenda. Ms. Roper said she understood this, although noted she wanted to express the position of her and her neighbors in regard to the stop sign.

Dennis Brown, 2119 W 6000 S, Roy, asked for clarification on the Beautification Committee's policy, to which Mayor Dandoy explained it was to designate a house once per month. Mr. Brown also expressed dissent in regards to the proposed 1% transient room tax. He discussed he owned several rentals in other cities which had the transient room tax, and he thought it was a lot for his guests to be paying for this tax as well as other property taxes. He also worried the transient room tax could be a hindrance to incentivizing hotels to come to the area. Mr. Brown thought instead of adding a new tax, the Council find ways to limit their spending instead. Mr. Brown also asked about the proposal up for discussion that evening in regards to the senior center, and Mayor Dandoy explained the proposal they would be discussing that evening was about serving meals there. Mr. Brown then expressed he would not be in favor of supplying meals at the center, and imagined this would increase resident's taxes as well.

Tim Higgs, 5381 S 3400 W, Roy, commented on Action Item F-4 about the transient room tax, and echoed Mr. Homer and Mr. Brown's sentiment that this tax did not make sense and should not be passed. Mr. Higgs did not think they should tax people for staying in Roy, and thought it was the wrong thing to do. He also referenced discussion point G-1, and asked they not limit a person's right to have signs in their own yard to advertise for garage sales and yard sales.

Mayor Dandoy closed the floor for public comments.

F. Action Items

1. Oath of Office – Fire Chief

City Manager Andrews introduced Theron Williams as his recommendation for Roy City's new fire chief.

He explained that Mr. Williams was a long time Roy City resident and had great experience.

Councilmember Joe Paul motioned to approve the recommendation for Fire Chief. Councilmember Wilson seconded the motion to approve. All Councilmembers voted "Aye". City Recorder Fowers delivered the Oath of Office.

Councilmember Sophie Paul asked Fire Chief Williams to introduce himself and his career, and Fire Chief Williams explained his background and went through his resume. He noted he had actually worked for Roy City for 20 years, so it was special for him to come back and continue to serve the City. He expressed excitement to watch the City grow. Mayor Dandoy then asked Fire Chief Williams to introduce his family and friends that were there to support him that evening, to which Fire Chief Williams indicated his wife Melanie, two of his sons, his parents, and his brother and sister.

2. Consideration of Resolution 23-17; a resolution adopting the Beautification Committee Policy

Councilmember Scadden wondered if this policy was sustainable, and recalled how he had faced issues several times in trying to actually award people with their certificates. Councilmember Joe Paul thought they should table it since Councilmember Jackson was not present that evening and she was very involved in the committee.

Councilmember Scadden and the other Councilmembers clarified they liked the policy and wished to continue it; they just needed to fine tune it and develop a better system with which to deliver the certificates. Councilmember Scadden spoke about how it was difficult to deliver certificates since they were not allowed to get phone numbers or contact information from the residents.

Councilmember Joe Paul motioned to table Resolution 23-17; a resolution adopting the Beautification Committee Policy. Councilmember Scadden seconded the motion to table. No roll call vote was taken, all Councilmembers voted "Aye" and Resolution 23-17; a resolution adopting the Beautification Committee Policy was tabled.

3. Consideration of Ordinance No. 23-10; to consider a request to amend the Zoning Map from RE-20 (Residential Estates) to CC (Community Commercial) for properties located at 5809, 5823, 5839, 5859, 5867 & 5891 South 3500 West.

City Planner Parkinson presented this item. He explained this was a request to amend the Zoning Map for a collection of properties on 3500 West and shared an aerial map of the properties in question. He oriented the Council as to the location of the road and the properties and indicated the surrounding businesses. City Planner Parkinson discussed the history of this item, and noted while there had only been three applicants originally, several other owners had since joined the request, bringing the total to six applicants. City Planner Parkinson noted this request was in line with the recently adopted General Plan, and said both the Planning Commission and City Staff recommended approval.

Councilmember Wilson asked about a property which was marked in red on the Zoning Map, although it was not marked as part of the request. She said the property owners in question, the Blackburns, thought they were part of the request. She said she had spoken with them yesterday and they had expressed to her that they wanted to be a part of the application. City Planner Parkinson replied he had also spoken with the Blackburns previously, and reported they had withdrawn their interest in being a part of the application. City Planner Parkinson noted the Blackburns could choose to apply separately, although at this point it was too late for them to join this particular request.

Councilmember Scadden motioned to approve Ordinance No. 23-10; to consider a request to amend the Zoning Map from RE-20 (Residential Estates) to CC (Community Commercial) for properties located at 5809, 5823, 5839, 5859, 5867 & 5891 South 3500 West. Councilmember Sophie Paul seconded the motion to approve. A roll call vote was taken, all Councilmembers voted “Aye” and the motion carried.

4. Consideration of Ordinance No. 23-11; an ordinance Establishing a Transient Room Tax, Adopting Relevant Provisions of the Utah Sales and Use Tax Act and Providing for Collection and Use of Revenues.

Assistant City Manager Flint provided an overview of the transient property tax, and indicated this would apply to all existing hotels and short term rentals as well as any which moved into Roy in the future. He noted one of the advantages of this tax was that the funds from the tax were allowed to go straight into the General Fund to be used for whatever purpose the Council saw fit.

Councilmember Wilson asked what the impetus was to make this change now, and she asked what they foresaw the money being used for as well. Assistant City Manager Flint reiterated it was the Council’s prerogative how to use the money, and gave several suggestions. He then discussed this was a way to increase revenue for the City without raising taxes for the residents. Assistant City Manager Flint also noted most cities surrounding Roy already collected transient room tax. City Manager Andrews elaborated a law had been passed in the 1990s which had allowed for transient room taxes, although Roy had never taken advantage of this.

Mayor Dandoy noted the City had many bed and breakfasts which would be included in the tax, and asked about condominiums. Assistant City Manager Flint clarified it only pertained to short term rentals, and said the tax would only apply if the stay was less than 30 days.

Councilmember Wilson asked if there was reasoning for doing this beyond just another revenue-generating tax. Mayor Dandoy acknowledged this was a good point, and agreed it was not very palatable to add another tax source which would feed into the General Fund for no specific purpose. Councilmember Scadden noted if they were to add this tax, Roy City would likely start to attract primarily business travelers to hotels, since the high taxes would likely deter those traveling for pleasure, whereas business travelers usually had their companies pay for them. Councilmember Scadden pointed out they needed to think about what kind of travelers they wanted to attract to the City.

Councilmember Wilson motioned to open the floor for public comment. Councilmember Sophie Paul seconded the motion. All Councilmembers voted “Aye” and the floor opened for public comment.

Dennis Brown commented he owned some rentals in St. George, and said some people would rent his properties for up to a month. He discussed some of the challenges of trying to entice people to stay given how high the transient room taxes were, and noted he had seen some people rent rooms for 31 days just for the sake of avoiding the transient room tax for stays under 30 days. Mr. Brown spoke about the combination of city taxes plus transient taxes being too high.

Kevin Homer addressed Councilmember Scadden’s perspective on business travel. He then acknowledged that some hotels in the City heavily utilized public services as they had frequent calls to 911 for police or fire services, and he thought the cost of those services should be paid by the specific guests who necessitated those calls, not law abiding citizens. Mr. Homer pointed out when he stayed in a hotel he did not do anything which required emergency services to be called, and he thought the fees associated with emergency services could be billed through the judicial system to those who utilized the services.

Jared Roper expressed he was in favor of the tax. He thought it was always good to find ways to bring extra money into the City.

Councilmember Joe Paul motioned to close the floor for public comment. Councilmember Scadden seconded the motion. All Councilmembers voted “Aye” and the floor closed.

Councilmember Scadden proposed they table the ordinance for further research and discussion, and Councilmember Wilson agreed they needed to flesh it out further. Mayor Dandoy then directed the Councilmembers to reach out to City Manager Andrews and tell him what kind of further research and data they wanted to see in order to come to a final decision about the proposed tax. Councilmember Scadden thought they should hold a work meeting in the near future in order to go over all of the items they had tabled.

Councilmember Joe Paul motioned to table Ordinance No. 23-11; an ordinance Establishing a Transient Room Tax, Adopting Relevant Provisions of the Utah Sales and Use Tax Act and Providing for Collection and Use of Revenues. Councilmember Wilson seconded the motion. All Councilmembers voted “Aye” and the Ordinance was tabled until a work session could be established to further discuss.

G. Discussion Items

1. Garage and Yard-sale Signs

Mayor Dandoy explained that per their current sign ordinance, any resident in Roy City was entitled to have a yard or garage sale, although the only place they could post signs to advertise for the sales was on their own private property. He clarified signs could not be posted on telephone poles, public signs, medians, or other people’s private property. Mayor Dandoy noted that functionally, this never happened and many people posted yard sale signs on City property. Mayor Dandoy asked the Council if they wanted to task the Planning Commission with considering making an adjustment to their sign ordinance, or if they wanted to take no action at this time.

Councilmember Sophie Paul opined that whatever they did, it needed to be made enforceable. Mayor Dandoy agreed this was a code enforcement nightmare. Councilmember Scadden also noted the challenge of removing signs which were posted where they were not supposed to be.

Councilmember Wilson also discussed the crossover to when a yard sale constituted a business, and asked what the technical delineation between a personal yard sale and a business was defined. Assistant City Manager Flint replied he did not have an answer for that, and said the ordinance did not actually define what a yard sale was. He suggested they pass the task of coming up with definitions to the Planning Commission. Mayor Dandoy commented that sometimes Roy City High sometimes violated their sign ordinance as well, so he thought in general they needed to update the ordinance.

2. Park Bathroom Security Update

City Manager Andrews discussed they had sent out bids for the addition of wireless infrastructure, additional cameras, and a smart sensor, and the estimate had come back at \$29,000. While he acknowledged this seemed high, he pointed out this would be for all of the parks in the City as well as the Complex, and he suggested this be added to the budget amendment. Mayor Dandoy added this could help mitigate damages which were very costly to the City. Mayor Dandoy pointed out every time the bathrooms were vandalized, they had to pull money out of the General Fund to address it. Councilmember Wilson asked

about the cost of ongoing maintenance, and City Manager Andrews replied the infrastructure should not require too much; they would have to replace parts on occasion as they wore down, and they would also pay to have the cameras cleaned about four times a year.

City Manager Andrews elaborated they had electronic locks on the bathrooms at Emma Russell Park, and explained they could control them from their cell phones and set them to lock automatically at certain times. City Manager Andrews said they were test-running the program at Emma Russell first, and if it worked well they hoped to install electronic locks at all the parks. He also discussed how they ideally hoped to catch the perpetrators, or at least deter people from committing acts of vandalism in the future.

Mayor Dandoy asked the Council if they wished to move forward with the budget adjustment, and the Council expressed they were willing to amend the budget to include the purchase of camera equipment for the bathrooms in the parks. City Manager Andrews noted he would begin the formal process of budget amendment.

3. Aquatic Center Reservation Policy

Mayor Dandoy explained the current Aquatic Center rental policy and noted it gave preference to Roy City residents first, then opened reservations to people from other cities. He noted this center was being treated like a regional facility since there was nothing comparable in neighboring cities. Mayor Dandoy said in some cases, other cities even held large-scale events at the Aquatic Center. He explained the consideration before the Council was if they wanted to allow for a municipality outside of Roy to have a day set aside for their residents to have the Aquatic Center reserved. Councilmember Scadden said if they wanted the governments to run like businesses and they wanted to allow cities to “jump the line” so to speak, they should charge a fee for that. Councilmember Joe Paul clarified the reservation fee was currently \$1,500 for non-Roy City businesses and residents, and \$1,000 for Roy residents and businesses. Councilmember Joe Paul thought if non-Roy City entities wanted preferential reservations, it should be an additional \$300-500 more.

Councilmember Wilson mentioned it was a regional facility and recalled how hard they had worked to get people to donate for the center. She thought it would be nice for non-Roy City residents to donate in order to keep the facility running if they wanted to use it, and noted the extra fee could be considered a donation.

Mayor Dandoy clarified they were only talking about renting out the Aquatic Center, not the entire Complex, although if they wanted to they could have that conversation as well. Mayor Dandoy said if they wanted to consider the Aquatic Center as a regional facility, the other cities who used it would have to pay in more, and he thought they could achieve this by increasing the usage fee for anyone outside of Roy City. Mayor Dandoy explained the non-resident fee helped offset the costs of keeping the facility running, and asked the Council how they wished to move forward.

Councilmember Joe Paul thought whoever wanted priority booking should pay an additional fee. Councilmember Scadden thought they should stick to just municipalities, and worried about opening up priority booking to anybody. Councilmember Sophie Paul thought the additional fee should be in the \$500 range, and Councilmember Scadden opined the priority booking fee could go up to \$2,000. Mayor Dandoy asked if they should rewrite the policy, and Councilmember Wilson thought they should hold a work session about it in which they could discuss their options in greater detail. Councilmember Scadden thought if they went off of market demand, they should charge a premium fee as there were people willing to pay it.

4. Senior Center Lunch

City Manager Andrews explained in previous years, the City had facilitated serving lunch to the seniors.

He recalled there had been two times where the City had actually provided the lunch, and said he had been asked if they could do so again this year. He explained it would likely be a day in September.

Councilmember Wilson worried about the principle of the request, and noted while it might just be \$1,000 now, it set a precedent she did not want. She said she was not in favor of using City funds for something like this.

Mayor Dandoy clarified this was not something they did every year, and noted they had only paid for this twice in twelve years. He noted the main issue at hand was if they were comfortable using taxpayer's money for this, and how they felt about establishing a pattern of fronting the costs for the meal. Councilmember Scadden asked how much this would be, and Mayor Dandoy estimated it would be in the \$1,000-1,200 dollar range.

Councilmember Wilson thought they needed to stop this somewhere, and said although she loved and cared for the seniors, she advocated that they needed to keep this separate. She also pointed out they should keep the City Staff out of this project, and rely only on volunteers in order to keep things clearly delineated as well.

Councilmember Sophie Paul wondered if there was an easier and more cost-effective way to provide this meal, and noted it was particularly expensive to bring in oil and deep fry everything. Councilmember Wilson pointed out this was more of an issue of principle, rather than trying to make it as cheap as possible. Mayor Dandoy noted they did something similar for the Fire Department, although for them, they only served the food; they did not pay for it.

Councilmember Sophie Paul wondered if they could try to collect donations in order to fund the meal and the other Councilmembers thought this was a good idea. She noted they already had staff at the center who were there to cook the food. Mayor Dandoy recalled many Councilmembers in the past had attended the event as volunteers, and he said it was great community interaction for the seniors. Mayor Dandoy asked the Council if they wanted to establish the event, or not. He noted this event was unique in that the Council was being asked to purchase, prepare, and serve the food, although this was not the requirements for them at the Thanksgiving or Christmas meals.

Councilmember Joe Paul thought they could do this with the food provided to the center from Weber County. Councilmember Joe Paul said he was in favor of serving food, although he did not think they should take on the costs of doing so. Mayor Dandoy suggested they not do it, and reevaluate the issue next year and see how they felt about it. The Councilmembers agreed to this plan of checking in again next year, and taking no action that year.

5. Tuition Reimbursement Policy

Mayor Dandoy explained the policy did not sufficiently cover how this pertained to senior staff. He explained City Manager Andrews managed the program well, and he made the final call as to who the policy could and could not apply to. Mayor Dandoy explained the City Manager had to consider if the program was relevant to the employee's job as well as the cost of the program before they approved anything, and he noted they had one employee who was currently taking advantage of the program. Mayor Dandoy asked if they wanted to allow senior employees to utilize the program and further their education, and he also noted since City Manager Andrews could not approve himself to take classes or participate in any kind of academic program for himself. Mayor Dandoy asked the City Council if they wanted to put something in place which would allow the City Manager to get involved in the program, and suggested either himself or the City Council could propose the City Manager take classes.

Councilmember Scadden clarified it was a conflict of interest for the City Manager to identify and approve themselves to take classes, and thought in that case it should come before the City Council. Mayor Dandoy asked if the Council would be in favor of a roll call vote when it came to possible programs for the City Manager to take, and there was a general consensus they were all in favor of this.

6. 4-way Stop Sign at 5175 S and 2500 W

City Manager Andrews explained this was in response to a public comment, and said according to Police Chief Gwynn there had been three accidents at the intersection since 2017, one of which had been discussed at the previous Council meeting. City Manager Andrews reported they had conducted a traffic study, which had yielded the result that there was not enough traffic to warrant a stop sign. However, he explained the Council could still choose to have a stop sign installed if they felt it was warranted.

Councilmember Wilson reported she had spoken with people who lived nearby, and explained their main concerns was there was a lot of foliage at the intersection which impacted visibility and there were often near-misses due to the logistics of the interaction. She did not think a stop sign was necessary, but wondered if there were other things they could do which could increase safety. City Manager Andrews pointed out in the accident they had discussed the previous meeting, the driver reported they had made eye contact with the person they had hit, so he did not think lack of visibility was the main issue. City Manager Andrews said they could work with Public Works to have the foliage pushed back. City Manager Andrews thought they could also add flashing lights to the existing stop sign if they thought that would help.

Mayor Dandoy asked if the Council had the authority to put a stop light at the intersection, and recalled a previous police chief had told him once that the Council actually did not have the jurisdiction to do so. The Councilmembers and City Staff debated this point, and Mayor Dandoy asked if the Federal Highway administration or any other entity specified that the City Council actually did have the authority to change speed signs or install stop signs without an Engineering or traffic study to validate their decision. City Manager Andrews did not see why City Council would not have the authority to add traffic signals as they saw fit, although Mayor Dandoy reiterated his concerns about their liability.

Mayor Dandoy recommended that they make sure the Council had the prerogative to take this action and asked that they double check there were no policies in place which inhibited the Council's ability to make this change. He thought it was important that they get it documented that they had covered their bases and looked for policies which might inhibit them from making this change.

H. City Manager & Council Report

City Manager Andrews spoke about the Roy High Athletic Dinner, as well as the upcoming memorial for September 11th, which he noted would be held at the Fire Station. He also highlighted some "save the dates" for upcoming events throughout the City, including Trunk or Treat, which he specified would have the same details as the previous year. He indicated he would send all of these dates and details to the events to the Council as an email.

Councilmember Sophie Paul discussed the recent Arts Council meeting and asked that they add some points which had come up during that meeting to their upcoming work session, and Mayor Dandoy replied they could do so.

Mayor Dandoy reminded the Councilmembers they had been invited to a 9/11 Memorial event for the

following day, and requested their presence.

I. Adjournment

Robert Dandoy
Mayor

Attest:

Brittany Fowers
City Recorder
